703.356.2783

My name is Pete Sanders and I have purchased the entire parts collection of Charles H. Selick, whom I knew for many years. It is my intention to continue Charley's business in his fashion -- **high quality**. We opened for business on August 20, 2007, but there will be changes that will probably take a year to complete. As you can imagine, Charles had quite a few parts.

The business will be handled by an electronic database that can provide descriptions of the parts, along with photos, drawings, sketches and dimensions. Although parts are available, restored units will be stressed, requiring core or exchange of existing units. The preferred method of ordering will be via email.

I am an active member of the CLC, AACA, and the CCCA. I currently own a 1930 Cadillac V-16 Madam X, pictured above, which recently won Best of Class and Best Pre War at the 2007 CLC Grand National in Savannah, GA.
